Subject: Question - Use of Java Interceptor in place of user exists

Date: Wednesday, April 24, 2019 11:37:23 AM

[External Email - Be careful! DO NOT open attachments or click links from unknown senders or unexpected email.]

Good Morning All,

Reaching out to the group to see who is using Java interceptors in CC&B. We are converting a COBOL user exit to a Java interceptor and are experiencing difficulties with implementing a "Warning" feature. If you or staff have any experience with this I would be interested in getting more information from you. Thank you in advance for your time.
